

Full Day Douro Valley with Lunch and Wine Tasting

A must visit if you are exploring the North of Portugal! Visit the home of Port wine and marvel at the beautiful landscape and scenery that the Douro region has to offer.

When the coastal area ends, Amarante appears divided by the Tamega River, with a temple located next to it on one of the riverbanks, St. Goncalo. Protected from the humid winds of the Atlantic by the Marao and Montemuro Mountains, we arrive to the Douro Valley and tribute is paid to the combined work of men and nature, depicting the universal value of the active role of a landscape of excellence. The Alto Douro Vinhateiro (Douro Wine Region) is classified as World Heritage by UNESCO since 2001. It is a place where the magic of the landscape highlights the terraces that grow the famous and cherished Port Wine, in the most ancient and beautiful demarcated wine region of the world.
