

## Whale Watching Safari

Take part in an adventure at sea with an unforgettable trip into the world of whales and sea birds.

This tour shall offer you a perfect chance to spot some of the whales swimming close to the coast line. The various types of whales commonly sighted include minke whales, white-beaked dolphins, harbor porpoises and the popular humpback whales, the majestic fin and sei whales and the killer whales (orcas) are also occasional companions to our boats. We will be accompanied by sea birds such as gannets, puffins, guillemots, cormorants, gulls, kittiwakes, arctic terns and many more. Our trips take us past several islands inhabited by colonies of puffin, a great photo opportunity! Between June to August you may even take part in the midnight whale watching adventure! Ideal as a relaxing ending of a busy day or as a beginning of a fun night in town. As our whales never fully sleep...Enjoy one of the most advanced whale watching vessels in Iceland and at the same time get a good look at the capital from the sea.
