

## See Santorini in One Day with King Thiras

Enjoy a day on the water on a traditional Greek boat visiting the highlights of Santorini - dont forget your swimmers!

Depart by coach to visit the Prophet Elias Monastery built on the highest point of the island in 1711 AD. This location offers breathtaking views. The picturesque village of Pyrgos is close by for you to capture some magnificent photos. Then depart by bus to Athinios port to board the King Thiras, a traditional Greek boat, which will take us to the Volcano. After visiting the active crater, we will continue sailing to the Hot Springs where we can swim in the green sulphur waters. After half an hour the boat will sail to Thirassia island. There you can swim at the beach or you can visit the traditional village Manolas by the winding steps, either walking or riding a donkey. Back on board again and sail to Oia which is our last destination. Oia is built along the rim of the caldera wall. You can walk in the village, enjoy the magnificent panoramic view and the spectacular colorful sunset.
