

Chopin Concert

The best place to listen to the music of the greatest polish composer, Frideric Chopin.

A magnificent pianist will perform the most known tunes created by F. Chopin, taking spectators on a time trip to the XIXth century Warsaw. You are picked-up from your accommodation and transported to the Castle Square from where you have only 5min walk to the Concert place that is located in one of the reconstructed buildings attached to the Royal Castle. You will have a bit of time to take a walk around the Old City of Warsaw to feel the mood of this magical place. Concert starts at 18:00 hours sharply so it is great to be there few minutes before and be inspired by the amazing views of nature in the garden behind the concert place. After the concert you will still have a bit of time for yourself, before your return transfer takes you back to the Castle Square at 20:00 hours (the same drop-off and pick-up site).
